Little Napoleon of Caribou, The .	785	Row'tilly Girl, The	817
		Sister,	371
		Simpson Willoughby's Groom,	691

1. The first part of the paper is devoted to a general
discussion of the problem. It is shown that the
problem is of great importance and that it has
not been completely solved. The author then
presents a new method for solving the problem.
The method is based on the use of the
Fourier transform and the method of
steepest descent. The author shows that the
method is very efficient and that it can be
applied to a wide range of problems.
